RE: UCR 2018 Registration Delayed to Nov. 1

The Unified Carrier Registration (UCR) Board of Directors is delaying the start of the 2018 registration year to November 1.

We regret this inconvenience and appreciate your patience.

The reason for the delay is to provide the Federal Motor Carrier Safety Administration (FMCSA) adequate time to publish and receive comments on its proposed rulemaking for 2018 UCR fees. This process is expected to be completed next month. The fee levels being considered are based on a recommendation submitted by UCR to the FMCSA in March 2017 which included a reduction for carriers at all levels. The proposed rulemaking is expected to be published in the Federal Register within the next few days.

UCR will distribute this critical information throughout all of our available channels. We encourage you to share this message with any relevant parties in your state.

Please do not accept any carrier fees for the 2018 registration year. If received prior to November 1, please return to the entity that paid the fee.

We will continue to keep you updated as needed.
